Parent Helper scholarships available. Contact [ildiko@sciencesmartkids.com](mailto:ildiko@sciencesmartkids.com)

## Meet Andres Wemiz

"I am passionate about teaching art. I have a BA in Studio Art with an emphasis in Drawing & Painting, and a Credential in Art from San Jose State University. I have taught art for five years for Hidden Talent Art Studio, where we brought fine art programs to various elementary schools throughout the region. I worked for Camp Captivate last summer. My motivation to teach art stems from a lifelong passion for drawing, painting and sculpting while not having an adequate level of exposure as a child myself. I aspire to help children actively engage in the creative process and express how they think and feel without any inhibitions to their own sense of identity and expression. I can't wait to create beautiful art with your children."
